

Portable Air Purifiers

Each air purifier utilizes advanced Medical Grade HEPA technology to remove airborne viruses and bacteria. The Certified HEPA filters remove up to 99.99% of all particles 0.007 microns or larger. They can be moved from place to place in classrooms, office buildings, administrative offices, and auditoriums.

High Capacity

4 Stage Filtration Process and 360-degree intake system removes sub-microns particles. Filters a wide range of airborne particles, including viruses that are 0.1 microns and larger, bacteria, chemicals, gases and odors.

COVERAGE	1,500 Sq. Ft.
AIRFLOW	250 CFM
FILTER COMPOSITION	Carbon-Zeolite, True Medical HEPA
CADR	425
PARTICLE EFFICIENCY	99.97% Efficiency of particles 0.3 microns or larger

- Black
ZUSA-AP-1
- Sandstone
ZUSA-AP-2

Premium High Capacity

Utilizes a Medical Grade HEPA Carbon Cloth to establish a 5 Stage Filtration Process. Provides ultimate protection against the COVID-19 virus since it contains an extra level of protection, a HEGA carbon cloth, which captures and destroys airborne viruses.

COVERAGE	1,500 Sq. Ft.
AIRFLOW	250 CFM
FILTER COMPOSITION	Carbon-Zeolite, True Medical HEPA, Military Grade HEGA Carbon Cloth
CADR	425
PARTICLE EFFICIENCY	99.97% Efficiency of particles 0.3 microns or larger

- Black

- Sandstone
ZUSA-AP-4

Ultra Purity

Novel electrostatic technology attracts and aggregates ultrafine particles at the filter to create ultra-pure air quality. Captures particles 40x smaller than a traditional HEPA filter.

COVERAGE	1,200 Sq. ft.
AIRFLOW	200 CFM
FILTER COMPOSITION	Carbon-Zeolite-Potassium Permanganate, Germicidal, Electrostatic True Medical HEPA
CADR	325
PARTICLE EFFICIENCY	99.99% Efficiency of particles 0.007 microns or larger

- Black
ZUSA-AP-16

Ultra Purity Ultra Capacity

Offers the same ultra-pure technology and provides the highest coverage of all models making it ideal for cafeterias, gymnasiums, and auditoriums.

COVERAGE	3,500 Sq. ft.
AIRFLOW	950 CFM
FILTER COMPOSITION	Carbon-Zeolite-Potassium Permanganate, Germicidal, Electrostatic True Medical HEPA
CADR	1600
PARTICLE EFFICIENCY	99.99% Efficiency of particles 0.007 microns or larger

Portable Air Ionizers

Air Ionizers discharge negative ions into the air in order to remove potentially harmful particles and viruses. They directly treat the air and deal with the actual source of contamination. Each ionizer plugs into standard 110V outlets.

Standard Capacity Unit

COVERAGE	200 sq. ft.
NUMBER OF SPEEDS	1
AIRFLOW	50 CFM

White
ZUSA-AP-18

High Capacity Unit

COVERAGE	900 sq. ft.
NUMBER OF SPEEDS	2
AIRFLOW	180 CFM

White
ZUSA-AP-19

Ultra Capacity Purifier & Ionizer

Functions as both a purifier and ionizer to provide maximum protection

COVERAGE	2000 sq. ft.
NUMBER OF SPEEDS	5
AIRFLOW	533 CFM
FILTER COMPOSITION	Panel Filter, True Medical HEPA, Activated Carbon
CADR	900
PARTICLE EFFICIENCY	99.97% Efficiency of particles 0.3 microns or larger

UV Air Solutions

Our Portable UV Light units remove harmful viruses and bacteria by exposing them to ultraviolet radiation. All of our units can be moved from place to place within schools and offices.

UV Light Disinfectant Section

Collects air in the room and it runs it through a cartridge chamber with High Intensity Ultraviolet light. It penetrates viruses and bacteria and alters its genetic structure.

UV Light Air Cleaner

COVERAGE 800 sq. ft.

Portable UV Light Purifiers Section

Combines filtration and UV disinfection to create the ultimate protection against every day indoor pollutants. Removes a wide range of airborne particles including viruses, bacteria, chemicals, gases and odors.

Standard Capacity

COVERAGE 1,000 sq. ft.

AIRFLOW 250 CFM

CADR 425

Our integrated ionizers and purifiers incorporate directly into your existing HVAC system to offer enhanced coverage. Inquire for Technical Support. Installation Services are available upon request.

Integrated Purifiers

Standard Capacity

AIRFLOW	1,200 CFM
FILTER COMPOSITION	Carbon-Zeolite-Potassium Permanganate, Germicidal Filter, Electrostatic True Medical HEPA
CADR	2000
PARTICLE EFFICIENCY	99.99% Efficiency of particles 0.007 microns or larger

ZUSA-AP-29

High Capacity

AIRFLOW	2,000 CFM
FILTER COMPOSITION	Carbon-Zeolite-Potassium Permanganate, Germicidal Filter, Electrostatic True Medical HEPA
CADR	3400
PARTICLE EFFICIENCY	99.99% Efficiency of particles 0.007 microns or larger
