Plastic Dividers with Round Corners

Self-Supported Plastic Dividers with Square Corners

Also known as sneeze or cough guards, these optically clear plastic dividers are used to separate individuals that come into close contact with one another. This divider has rounded corners to remove any sharp edges. Comes with self-supporting legs so it requires little setup time and is portable.

Plastic Dividers with Small Centered Opening

## Plastic Dividers with Small Centered Opening

Also known as sneeze or cough guards, these optically clear plastic dividers are used to separate individuals that come into close contact with one another. This divider has rounded corners to remove sharp edges and is designed with a small cutout located at the bottom center to act as a passthrough for cables, wires, credit cards, money, papers, and other small objects.

Self-Supported Plastic Dividers with Small Centered Opening

Also known as sneeze or cough guards, these optically clear plastic dividers are used to separate individuals that come into close contact with one another. This divider has rounded corners to remove sharp edges and is designed with a small cutout located at the bottom center to act as a passthrough for cables, wires, credit cards, money, papers, and other small objects. Comes with self-supporting legs so it requires little setup time and is portable.

Plastic Car Dividers

Plastic Car Dividers

Also known as sneeze or cough guards, these optically clear plastic dividers are used to separate individuals in vehicles. This variant of divider is designed for smaller cars such as sedans, crossovers, and SUVs.

Part Number	Installation Type	Vehicle Type	Divider Thickness (DT)	Divider Width (DW)	Divider Height (DH)	Console Film Width (CFW)	Console Film Height (CFH)
BULK-PD-CD-1	Velcro	Sedan, Crossover, SUV	1/4"	47"	15"	16"	20"
BULK-PD-CD-2	Velcro	Vans, Trucks	1/4"	55"	15"	16"	20"

Installation Accessories

Slotted Support Brackets

All feature adjustable slot to accommodate divider thicknesses between 1/8" and 1/2".

Mountable to Edge Surface with Screws

Our most stable and secure brackets.

Includes screws. Insert through screw holes of bracket for mounting.

Mounts to edge of desk, table, or another surface.

Fits 1" edge thickness.

Mountable to Edge Surface with Clamp

These brackets are easy to install and reposition.

Has clamp on base of bracket for mounting.

Mounts to edge of desk, table, or another surface.

Fits edge thickness less than or equal to 1-3/4".

Mountable to Top Surface with Double-Sided Tape

These brackets are easy to install.

Includes double-sided tape. Attach to base of bracket for mounting.

Mounts to top of desk, table, or another surface.

Extra Long Base, Mountable to Top Surface with Double-Sided Tape
These brackets are easy to install, stable and secure.

Double-sided tape pre-applied to base for easy install.

Mounts to top of desk, table, or another surface.

Extra long base provides added stability.

Foam Edge Guard

Provide protection along the edges of plastic dividers.

Commonly used on classroom dividers.

Adhesive-backing makes for easy installation.

10 ft. Long

Rubber Bumpers

Enhance stability of plastic dividers.

Position these to form a channel that the divider slots into.

Adhesive-backing makes for easy installation.

1" Wide x 4" Long
