# Plastic Dividers with Round Corners

## Plastic Dividers with Round Corners

Also known as sneeze or cough guards, these optically clear plastic dividers are used to separate individuals that come into close contact with one another. This divider has rounded corners to remove any sharp edges.

# Plastic Dividers with Round Corners

## Self-Supported Plastic Dividers with Square Corners

Also known as sneeze or cough guards, these optically clear plastic dividers are used to separate individuals that come into close contact with one another. This divider has rounded corners to remove any sharp edges. Comes with self-supporting legs so it requires little setup time and is portable.

# Plastic Dividers with Small Centered Opening

## Plastic Dividers with Small Centered Opening

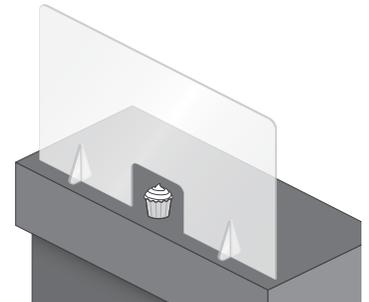

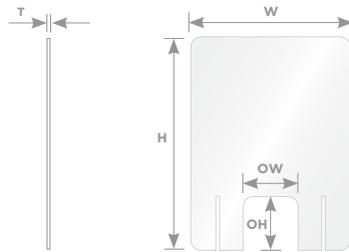

Also known as sneeze or cough guards, these optically clear plastic dividers are used to separate individuals that come into close contact with one another. This divider has rounded corners to remove sharp edges and is designed with a small cutout located at the bottom center to act as a passthrough for cables, wires, credit cards, money, papers, and other small objects.

## Self-Supported Plastic Dividers with Small Centered Opening

Also known as sneeze or cough guards, these optically clear plastic dividers are used to separate individuals that come into close contact with one another. This divider has rounded corners to remove sharp edges and is designed with a small cutout located at the bottom center to act as a passthrough for cables, wires, credit cards, money, papers, and other small objects. Comes with self-supporting legs so it requires little setup time and is portable.

# Plastic Dividers with Compartments with Bumpers

## Plastic Dividers with Compartments for Rectangular Tables with Bumpers

Also known as plexiglass divider, sneeze or cough guards, these optically clear plastic dividers are used to separate individuals that come into close contact with one another. Designed with compartments to separate people in offices, lunch and break rooms, and other confined spaces. Includes rubber bumpers to enhance security and stability. Bumpers are positioned on all sides and form a channel for the divider to slot into.

## Plastic Dividers with Compartments for Round Tables with Bumpers

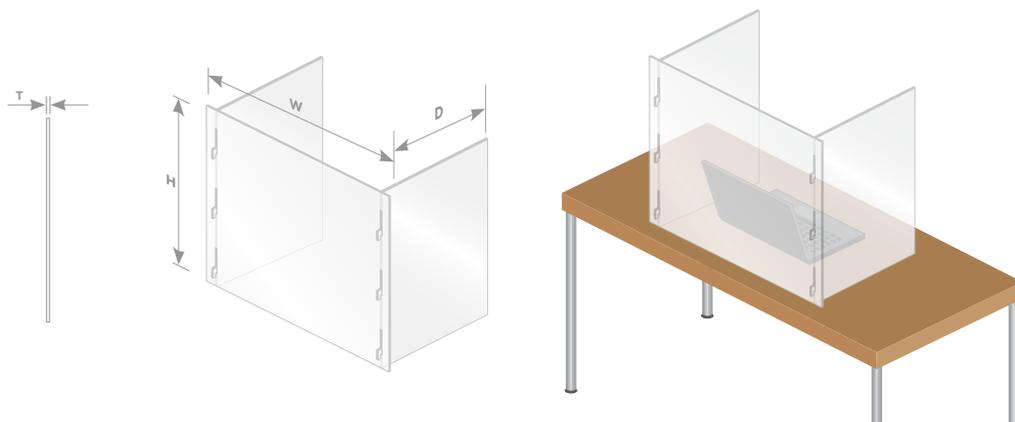

Also known as plexiglass divider, sneeze or cough guards, these optically clear plastic dividers are used to separate individuals that come into close contact with one another. Designed with compartments to separate people in offices, lunch and break rooms, and other confined spaces. Includes rubber bumpers to enhance security and stability. Bumpers are positioned on all sides and form a channel for the divider to slot into.

# L-Profile Plastic Divider

## J-Profile Plastic Divider

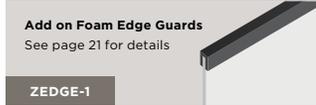

Also known as sneeze or cough guards, these optically clear plastic dividers are used to create a partition between desks in the classroom or office. The J-profile creates a barrier on three sides and is self-supported for easy installation.

Side and Front Panel Braces

Side, Front, and 2 Extra Panel Braces  
Two extra legs provide design flexibility and give the option to transform into two standalone dividers.

Add on Foam Edge Guards  
See page 21 for details

## Plastic Car Dividers

Also known as sneeze or cough guards, these optically clear plastic dividers are used to separate individuals in vehicles. This variant of divider is designed for smaller cars such as sedans, crossovers, and SUVs.

Part Number	Installation Type	Vehicle Type	Divider Thickness (DT)	Divider Width (DW)	Divider Height (DH)	Console Film Width (CFW)	Console Film Height (CFH)	Price
BULK-PD-CD-1	Velcro	Sedan, Crossover, SUV	1/4"	47"	15"	16"	20"	\$47.58
BULK-PD-CD-2	Velcro	Vans, Trucks	1/4"	55"	15"	16"	20"	\$95.15

# Installation Accessories

## Slotted Support Brackets

All feature adjustable slot to accommodate divider thicknesses between 1/8" and 1/2".

### Mountable to Edge Surface with Screws

\$5.10 ZBRCKT-1

Our most stable and secure brackets.

Includes screws. Insert through screw holes of bracket for mounting.

Mounts to edge of desk, table, or another surface.

Fits 1" edge thickness.

### Mountable to Edge Surface with Clamp

\$10.20 ZBRCKT-2

These brackets are easy to install and reposition.

Has clamp on base of bracket for mounting.

Mounts to edge of desk, table, or another surface.

Fits edge thickness less than or equal to 1-3/4".

### Mountable to Top Surface with Double-Sided Tape

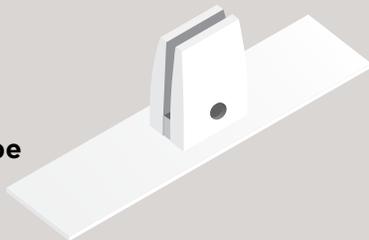

\$5.10 ZBRCKT-3

These brackets are easy to install.

Includes double-sided tape. Attach to base of bracket for mounting.

Mounts to top of desk, table, or another surface.

### Extra Long Base, Mountable to Top Surface with Double-Sided Tape

\$7.65 ZBRCKT-4

These brackets are easy to install, stable and secure.

Double-sided tape pre-applied to base for easy install.

Mounts to top of desk, table, or another surface.

Extra long base provides added stability.

### Foam Edge Guard

\$6.38 ZEDGE-1

Provide protection along the edges of plastic dividers.

Commonly used on classroom dividers.

Adhesive-backing makes for easy installation.

10 ft. Long

### Rubber Bumpers

\$0.64 ZBUMP-1

Enhance stability of plastic dividers.

Position these to form a channel that the divider slots into.

Adhesive-backing makes for easy installation.

1" Wide x 4" Long
