Air Purifiers for Protection Against the COVID-19 Virus

Our full line of air purifiers utilize advanced Medical Grade HEPA technology to remove airborne viruses and bacteria. Certified HEPA filter removes 99.7% of all particles larger than 0.3 microns. Portable air purifiers can be moved from place to place in classrooms, office buildings, restaurants, and wherever needed. It only takes the units about 20 minutes to exchange the air in a typical classroom.

High Capacity Air Purifier

4 Stage Filtration Process and 360-degree intake system removes sub-microns particles. Filters a wide range of airborne particles, including viruses that are 0.1 microns and larger, bacteria, chemicals, gases and odors.

COVERAGE	1,500 Sq. Ft.

Plastic Dividers with Small Centered Opening

Plastic Dividers with Small Centered Opening

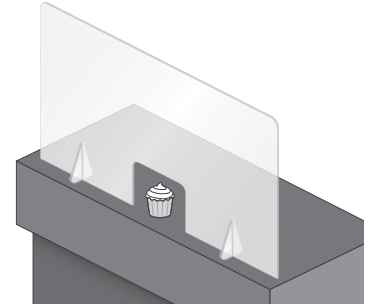

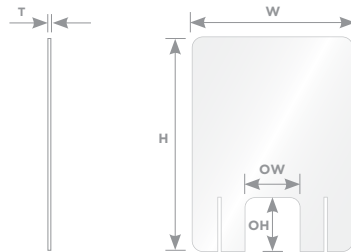

Also known as sneeze or cough guards, these optically clear plastic dividers are used to separate individuals that come into close contact with one another. This divider has rounded corners to remove sharp edges and is designed with a small cutout located at the bottom center to act as a passthrough for cables, wires, credit cards, money, papers, and other small objects.
